CONSTANT TEMPERATURE TO PREVENT SCALD
This technology prevents unsteady water temperatures, thus ensuring the safety of users while applying our product and bringing constant water temperature to your family.

SMART SCALD-FREE VALVE ELEMENT
Our smart scald-free valve element prevents unstable water temperatures. As high-density, non-toxic ceramic balance water beads are applied to the core components, the valve element can balance the pressure between the cold and hot water in the water supply pipes and thus give rise to constant temperature.

HOT AND COLD WATER CONTROL TECHNOLOGY
Leading technology enables adjusting temperatures freely by turning.

IMPORTED THERMOSTATIC SPOOL
International top spool, high temperature, acid and alkali, anti-aging, long life, temperature control more accurate, stable, more comfortable shower experience.
